The mark of responsible forestry

F.S.C. Forest Stewardship Council

Its purpose is to promote responsible management of the world's forests through developing standards, a certification system and trademark recognition. The process of tracking a product back to forest is called "Chain-of-Custody (C.O.C.) Certification."

Through the C.O.C., companies can demonstrate their commitment to the environment and responsible forest management.

FSC accredited chipboard at Gresham Office Furniture contains a minimum of 99% certified material. The 1% remaining material, although not FSC, is sourced from non-controversial sources.

No trees are cut down specifically to produce M.F.C.

Edging

Superior high impact resistant edging is used on all our board finishes in preference to the less environmentally friendly Polyvinyl Chloride (PVC).

METAL FINISHES
