- Fire retardancy locked in - **Medium Hazard** flammability.
- **Anti-static** and **easy clean**. Non-absorbent for maximum protection against stains. Diluted bleach can be used as a cleaning agent; fabrics are highly resistant to acid, alkali and other chemicals.
- **Non allergenic** - does not support the development of mildew, fungus or other bacteria; will not cause allergic reactions

Due to limitations in the printing process, when fabric is shown photographically we recommend that you send for actual fabric samples before ordering.

# Band 1 Seating vinyls

5 year guarantee 

## Sierra + BS7176 Medium Hazard Ignition Source 5

A KEY CHARACTERISTIC OF VINYL SURFACES, AS OPPOSED TO MOST FABRICS, IS THAT THEY ARE HYDROPHOBIC.

THEY DO NOT ABSORB WATER, THEY DO NOT RETAIN DAMPNESS AND THEY CAN BE COMPLETELY DRIED AFTER WASHING. RESEARCH HAS CONFIRMED THAT THE VIABILITY OF MRSA BACTERIA IS GREATLY REDUCED IN DRY ENVIRONMENTS.

Sierra+ contract vinyls are easy to use, easy to clean and are available in a wide range of colours. Sierra+ now has antimicrobial and antibacterial protection that resists gram negative and gram positive bacteria (including MRSA), filamentous fungi and yeast.

The mark of responsible forestry

#### F.S.C. Forest Stewardship Council

Its purpose is to promote responsible management of the world's forests through developing standards, a certification system and trademark recognition. The process of tracking a product back to forest is called "Chain-of-Custody (C.O.C.) Certification.

Through the C.O.C., companies can demonstrate their commitment to the environment and responsible forest management.

Over 99% of the Melamine faced chipboard used in the manufacture of office and leisure furniture has been sourced from FSC certified suppliers.

The 1% remaining material, although not FSC, is sourced from non-controversial sources.

No trees are cut down specifically to produce M.F.C.

#### Edging

Superior high impact resistant edging is used on all our board finishes in preference to the less environmentally friendly Polyvinyl Chloride (PVC).
