

VERCO

office furniture

specification guide and price list

january 2007

The Company

High Wycombe, synonymous with the furniture industry in the United Kingdom, is home to Verco Office Furniture, one of Britain's leading office furniture manufacturers. Established in the area since 1912, it has grown on the same site and now occupies over 50,000 square metres. Verco is a company that is proud of its history and its association with the fine traditions of quality and workmanship.

The Service

Verco's commitment to designing and manufacturing products to the highest achievable standards, together with a quality management system that complies to BS EN ISO 9001: 2000, enables the Company to offer a five year guarantee on all its products. This dedication extends beyond the products offered, running throughout the entire organisation from the moment an enquiry is received, to the final delivery and beyond.

The Products

With a reputation for producing an extensive range of quality office seating, Verco has established itself in the market place as a major manufacturer in the field of Executive and System Furniture. Utilising the latest technology in manufacturing plant and machinery, allied to the skills and craftsmanship of a dedicated workforce, the products represent the culmination of 90 years of experience within the furniture market.

Corniche Executive Furniture

All veneers and solid woods used in the manufacturing process are sourced from either European or North American suppliers who operate afforestation programmes.

As the veneers used are natural products, each piece has its own individual characteristics. Grain patterns and their appearances can therefore alter between products and despite the skills being employed variations can occur.

Intuition

Intuition reflects the traditional VERCO attention to detail. The beauty of real wood is enhanced by simple clean lines, bringing a refreshing European flavour to the modern Executive office.

A truly versatile and comprehensive range, Intuition offers the highest levels of functionality demanded by today's modern work practices.

Visual Desking

Visual Desking represents cutting edge design. Manufactured from hard wearing M.F.C. Laminate to VERCO's high Quality Standards, the range features a fully adjustable beam which slots into the leg without the need for any tools, forming a rigid structure within minutes.

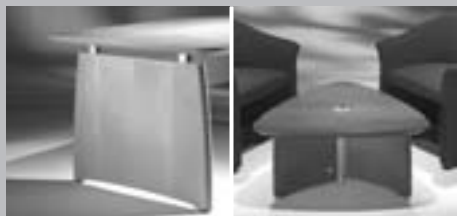

Visual Desking combines the qualities of strength, flexibility and individual style to create a unique and extensive system desking range.

Oblique Desking

A superb new range of desking, flexible enough to meet your every requirement, yet simple enough to change according to the needs of today's fast moving offices. Oblique creates an atmosphere of space and lightness with minimalist design aesthetics.

Manufactured from hard wearing M.F.C. Laminate, or in real wood veneer, this range features a fully adjustable beam structure, forming a rigid and robust framework within minutes.

Oblique can produce a workspace that reflects your personality together with the values and ethos of your Company, whether your choice is for stand alone desking or a 'free - address' bench system.

*"Office furniture solutions
that work as hard as you do."*

CORNICHE

Corniche furniture represents a commitment to providing a range of executive furniture with the highest possible standards of elegance and quality.

Desk tops are 40mm thick, solid wood lippings all round and with bull nosed profiles on the front and rear edges. Corniche is manufactured using real wood veneers from sustainable and renewable sources. Standard veneers are: **Oak (O)**, **Cherry (C)** and **Maple (M)** with the option of staining Cherry veneer to: **Walnut (W)** and **Rosewood (RW)** finishes.

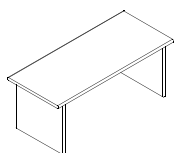

Leg Frames include height levellers and vertical wire tidying facilities as standard. The front and rear edges are lipped with solid wood with a bull nose profile.

Cable Management

Simple vertical wipe-in wire tidying facilities are standard on all panel end frames. Optional horizontal cable trays may be specified along with solid wood cable ports to allow cables onto the desk top which together with three way wipe-in channel provide a sophisticated solution for most situations.

PEDESTALS

Constructed from veneered panels, all 800mm deep desk height pedestal tops are 40mm thick, solid wood lippings all round with bull nosed profiles on the front edge and rear edges. 610mm deep pedestal tops are 40mm thick solid wood lippings all round and with bull nosed profile to the front edge. Mobile pedestal tops are 25mm thick with solid wood lippings all round.

Drawers are constructed from veneered components with heavy duty, concealed, ball-bearing runners. The option of a solid wooden sculptured pen tray emphasises the attention to detail that is typical of Corniche. Standard veneers are: **Oak (O)**, **Cherry (C)** and **Maple (M)** with the option of staining Cherry veneer to **Walnut (W)** and **Rosewood (RW)** finishes.

WIRE MANAGEMENT

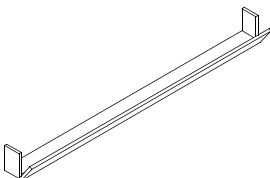

Vertical wire tidying facility, through a wipe-in three way channel, is standard on all panel end leg frames. Horizontal wire management is available, either by means of further wipe-in channel or by an additional cable tray which may be located on the back of the modesty panel. Cable 'cut-outs' are now standard on the Corniche modesty panels, allowing cables to pass through the modesty panel, where required.

STORAGE CUPBOARDS

Corniche storage is designed to offer a range of options and configurations with the same style and versatility seen throughout this comprehensive furniture range. Offered with 25mm thick tops with solid wood lippings all round, two heights of cupboard storage are available together with one glass fronted bookcase unit.

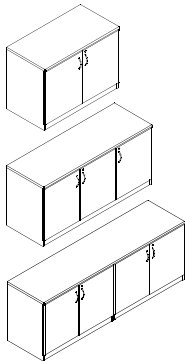

Desk height units include three widths, 1000mm, 1500mm and 2000mm, together with the option of a refrigerator unit, while the tall, high density storage unit is also able to accommodate a wardrobe 'pack'. All storage units feature height levellers as standard, together with a shaped front top edge to complement the Corniche desk edge detail.

All System Storage Units are supplied empty, ready to accept System Internal Options.

Standard veneers are: **Oak (O)**, **Cherry (C)** and **Maple (M)** with the option of staining Cherry veneer to **Walnut (W)** and **Rosewood (RW)** finishes.

INTUITION

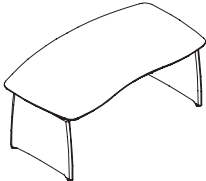

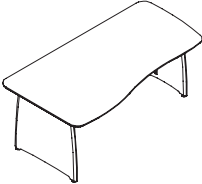

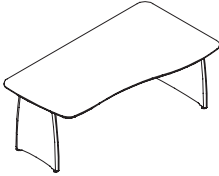

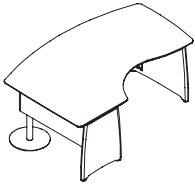

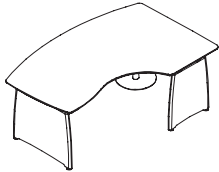

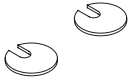

Intuition reflects the traditional VERCO attention to quality and detail. The beauty of real wood veneer is enhanced by the clean, modern styling, bringing a refreshing European flavour to the modern Executive office.

Simplicity of form and function is standard. Soft and subtle 'organic' desk shapes provide pleasing ergonomic solutions.

Desk tops are 30mm thick with a reverse chamfer on all top edges. Intuition is manufactured using real wood veneers from sustainable sources. Standard veneers are: Maple (M), Cherry (C) and Walnut (W).

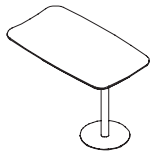

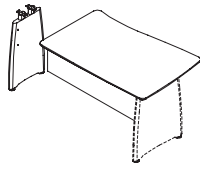

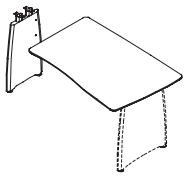

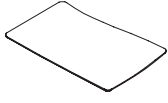

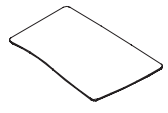

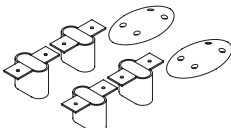

Leg Frames include height levellers and vertical wire tidying facilities as standard. Silver fittings highlight the traditional beauty of the Maple, Cherry or Walnut real wood veneers.

HI-LINE TABLES

Hi-Line is designed to withstand every day use. Tops are 40mm thick, with the benefit of solid wood lippings all round with a square edge profile. A choice of round wooden legs or veneered, arrowhead leg frames and three top styles enable Hi-Line to meet most meeting table demands.

Standard veneers are: **Oak (O)**, **Cherry (C)** and **Maple (M)** with the option of staining Cherry veneer to **Walnut (W)** and **Rosewood (RW)** finishes.

Hi-Line Tables	Description	Code	Price
	Circular 1220 Diam x 720	HIL 1	1,050.00
	Boat Shaped 2500 x 1220 x 720	HIL 2	1,600.00
	Boat Shaped 3000 x 1220 x 720	HIL 3	1,750.00
	Boat Shaped 4000 x 1220 x 720	HIL 4	2,500.00
	Circular 1220 Diam x 720	HIL 5	950.00
	Boat Shaped 2500 x 1220 x 720	HIL 6	1,500.00
	Boat Shaped 4000 x 1220 x 720	HIL 7	2,400.00
	Rectangular 2000 x 1000 x 720	HIL 8	975.00
	Rectangular 2500 x 1000 x 720	HIL 9	1,050.00

OBLIQUE CONFERENCE TABLES

Tops are 30mm thick with solid wood lipping all round. Oblique conference tables are manufactured using real wood veneers from sustainable sources. Standard Veneers are; Maple (M), Cherry (C) and Walnut (W).

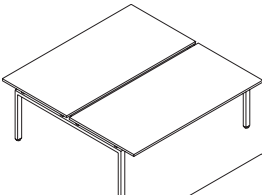

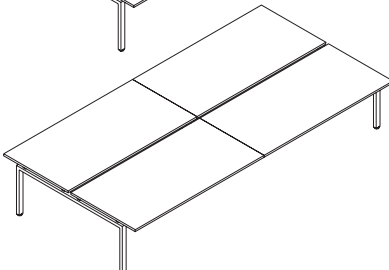

Leg Frames include height levellers and are manufactured from high grade Stainless Steel Rectangular Section tube.

Telescopic Beams are available in three lengths. They provide the stability for the table frame and are connected quickly and easily to produce a robust and versatile framework.

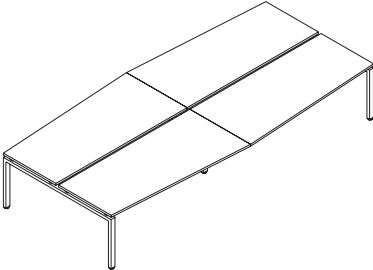

Please note: Table tops may be suited, at an additional charge of 15%.
