

# Ultra

2007 Specifiers Guide V1

## Ultra

The Ultra table collection is designed for meeting rooms where high quality furniture is essential. It aims to give the widest possible choice of finishes, ranging from wood veneer, through laminates and to solid acrylics.

Ultra also caters for the requirements of technology, with options to bring power, data and lighting to the table top.

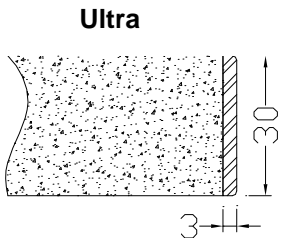

### Prices are inclusive of:

- \* Interactive brochure in cd format and on our website.
- \* Samples of materials sent out on request.
- \* CAD blocks for customers' own use.
- \* CAD support and 3d drawings on request.

Ultra		Index

Power	10
Seating Plan	11

Square edge detail for veneered tables, 30mm with 3mm wooden lip.

Ultra		Technical
-------	--	-----------

Hollow constructed bases allow for the passage of cables from floor to table top.

**Elliptical base**  
Used on all but circular shaped tables

**C-shape base**  
Used on circular tables

**Veneers**

We use real wood veneers for a high quality appeal. The depth of colour and the grain patterns are natural qualities of wood which set it apart from synthetic finishes.

Oak

Beech

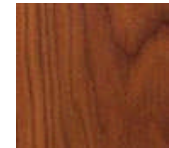

Ash

Maple

Cherry

American Black Walnut

**Veneers with inlays**

The craft of inlaying veneers is employed to contrast the different woods

Cherry veneer with Beech Inlay (Band A)

Cherry veneer with Maple inlay (Band A)

Walnut veneer with maple inlay (Band A)

Walnut veneer with birds eye maple inlay. (Band B)

**Laminates - colours**

Bright and cheerful colours have been selected for situations where it is important to create a colourful environment. This is a tough, durable surface.

Lipstick

Sublime

Karma

Ferrari

**Colours (Band A)**

**Laminates - colorpact**

This laminate is coloured all the way through so that edge joints are practically invisible.

Platinum

Diamond

Onyx

**Colorpact (Band B)**

Antique Glass effect

Frosted Glass effect

**Solid surfaces**

These are made from solid acrylic materials. They simulate glass but have the advantage of being more practical

Translucent inlays

Flush mounted, frosted glass or acrylic inlays are available on all tops. Please add the code shown to the code for the chosen table. Also available under lit (see lighting).

Inlay example

Polar frost acrylic inlay

UAI20 (2000mm dia table) 229  
 UAI26 (2600mm dia table) 333  
 UAI30 (3000mm table) 344  
 UAI45 (4500mm table) 688

Frosted glass inlay

UGI20 (2000mm dia table) 400  
 UGI26 (2600mm dia table) 560  
 UGI30 (3000mm table) 350  
 UGI45 (4500mm table) 690

Smoked glass inlay

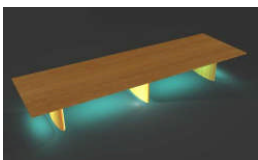

USGI20 (2000mm dia table) 418  
 USGI26 (2600mm dia table) 711  
 USGI30 (3000mm table) 546  
 USGI45 (4500mm table) 1090

Lighting

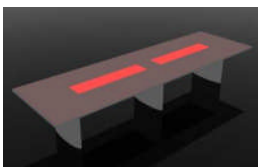

**Runway** is mounted into the top surface to give a star-like effect. The low voltage lights give off no heat. Please ask for details on colours and alternative systems.

USL20 (2000mm dia table) 445  
 USL26 (2600mm dia table) 544  
 USL30 (3000mm table) 382  
 USL45 (4500mm table) 670

**Down lighting** ambient mood lighting is achieved by down-lighting the underneath of the table top. The low voltage lights give off no heat. Please ask for details on colours and alternative systems.

UUL20 (2000mm dia table) 450  
 UUL26 (2600mm dia table) 900  
 UUL30 (3000mm table) 815  
 UUL45 (4500mm table) 1107

**Under lighting** a frosted glass or acrylic inlay is under lit to give a subtle effect. The low voltage lights give off no heat. Please ask for details on colours and alternative systems. (A glass/acrylic inlay must also be chosen)

UPL20 (2000mm dia table) 432  
 UPL26 (2600mm dia table) 895  
 UPL30 (3000mm table) 432  
 UPL45 (4500mm table) 832
