

The image shows a close-up, vertical view of a light-colored wood grain, specifically oak veneer. The grain is characterized by fine, vertical lines and subtle variations in tone, ranging from a pale cream to a warm, light tan. The texture is smooth and consistent across the entire surface.

Oak Veneer

The image shows a close-up of a light-colored wood surface with a vertical grain pattern. The wood has a warm, yellowish-tan hue and exhibits natural variations in color and texture, including subtle knots and grain irregularities. The lighting is even, highlighting the fine details of the wood's surface.

Maple Veneer

The image shows a close-up of a wood surface with a vertical grain pattern. The wood has a warm, reddish-brown hue. There are several small, dark, circular knots or imperfections scattered across the surface. The texture appears smooth but with natural wood grain variations.
